

PURPLEC

SEVENTH YEAR.

MAYSVILLE, KY., SATURDAY, JULY 23, 1898.

ONE CENT.

Purely Business!

The columns of a newspaper represent a cash value. No publisher is willing to give advertising "notions" free any more than a merchant will give his customer free gifts of goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

A Continuation of Our \$7.65 SUIT SALE

We will continue to sell \$10, \$12 and \$15 Suits for \$7.65 during this entire month. There are two reasons for this. One is that we find we have many more good Suits to put in this sale than we thought we had. The other reason is that our many country patrons are in the midst of the heaviest work of the year and did not have an opportunity to avail themselves of these splendid bargains; hence, the sale continues during the month. Don't miss the opportunity of buying for \$7.65 a Suit of clothes that would cost you \$12 to \$15 elsewhere, and at these prices you would not pay too much for them; they are worth it.

Respectfully,

WOMAN, LOVELY WOMAN!

She shows so softly that the strong About them never could have guessed The meaning of the whispered words Which she said to him addressed.

She smiled so sweetly when she spoke, None might imagine her intent, Or dream that anger tipped the shaft So graciously, indeed, 'twas sent.

She looked so saintly none could know How deeply was her spirit wrought; The tenderness within her eyes No index was to what she thought.

And none save he, of those who there Obscured her as she calmly sat, Had inkling that her fair lips bled: "You clump, that tie just kills my hat!"

ICED THE MEMBERS.

Rebekah Degree Lodge's New Presiding Officer Set 'Em Up Last Night.

At the meeting of Friendship Rebekah Degree Lodge last night Miss Lizzie Schwartz was elected Representative to the State Assembly, which meets in Louisville September 21st, one month earlier than heretofore.

At this meeting of the Assembly the anniversary of the founding of the Rebekah Lodge in this state will be celebrated, and it will no doubt prove an interesting and instructive meeting.

The following sick Committee was appointed: Mrs. Alice Payne, Miss Ella Wallace, Mrs. Margaret Schwartz, Messrs. W. C. Pelham and J. B. Orr, Jr.

At the close of the business the Noble Grand announced that all those in attendance proceed to Traxel's ice cream cream parlors where a few moments were passed in an exceedingly pleasant manner over ice and soda water, for which a vote of thanks was extended the incoming presiding officer.

It is customary with the newly-elected officers every term to have a nice lunch served, and Mrs. Alice Payne's set-up last night was one that was highly appreciated, as the extreme hot weather made ices in great demand.

WAR OPERATIONS.

The President's Plans as Given by a Close Friend of the Administration.

WILL NOT BOMBARD SPANISH CITIES.

Commodore Watson's Mission Is to Be the Capture or Destruction of the Fleet of Adm. Camara.

Havana Will Be Attended to After Porto Rico Is Taken—Will Not Be Attacked, However, Until After the Yellow Fever Danger Is Past.

WASHINGTON, July 23.—A significant statement was made Friday by a gentleman in a position to speak with knowledge and authority of the plans of the administration with reference to future war operations. In substance the statement was as follows:

"Commodore Watson, in proceeding to the Spanish peninsula as soon as the Porto Rican expedition is gotten under way, is not to bombard the cities of the Spanish coast. No idea of bombardment of the coast is entertained. While there may be other incidental purposes, the main mission of Watson is to take care of Adm. Camara's fleet. The movement of this fleet and the fears and apprehensions caused by reports concerning it are to be stepped for all time. The ships under Camara will be located by Watson and finally met and engaged. The talk occasionally indulged in as to the Canary islands is utterly without foundation. This government has no plans to take those islands and does not want them."

"Despite popular expectation that Porto Rico operations will be followed immediately by action against Havana, it can be said that Havana will not be attacked while yellow fever conditions exist. This is certain."

"It would be the height of national folly to engage our troops in and about that fever pest hole. Consequently it will be left until the climate lends its aid in the autumn. Shafter will hold his own in the eastern strip now surrendered, may gradually push his way over some other districts, and if there should be a partial cessation of immediate aggressive action at any point, will move against it, but Havana will be left until yellow fever dangers are past."

"Meantime in the next two months there will be enough to keep this government busy. We will have to cope with the most serious problem yet, or providing for the government and the future of the lands involved in this war. The hauling down of the Spanish flag and the hoisting of that of the United States means more than on its face it indicates to the popular mind. No more important matter is to engage the attention of the government than the details to be arranged for the disposition, control or temporary possession pending transfer of possession of these additions to our domain. There are questions of the most intricate and far-reaching character to be decided. Porto Rico, whose fall is likely to be recorded within a week or ten days, will have to have a new government. Porto Rico, of course, is to be kept permanently by this government but there must be a military government first and many preliminary details will have to be worked out."

There must be a rehabilitation of existing systems of government where we have carried out a revolution, and the local schemes and conditions will form the basis of the general system for the control of the land there must be numerous changes, abolishing such laws as may be oppressive. Laws will have to be very thoroughly gone over and the tariff system revised in some way, but in general and as far as possible the system of government which now exists is to be followed. All this means work of the most serious character, and in the absence of existing laws to govern such matters the president has to go ahead on his own responsibility. Next winter, however, when congress convenes, the necessity for laws covering such matters will be recognized, and by recommendations to congress the laws will be submitted by the president, and it is very probable the shaping of the destinies of Porto Rico and similarly circumstanced possessions will be a commission or commissions to be appointed to draft the laws for adoption by congress. The government is likely to be busy from now on considering these matters of governmental detail."

"It is a certainty as far as now can be foreseen that Guam, the island in the Ladrones group that was captured by this government, will be permanently retained as a coaling and supply station. For these purposes it is valuable from its location between the Sandwich and the Philippine islands, but on the point of the rest of them will be kept I am not sure. They may be and they may not be. The disposition of the Philippines is unsettled and depends upon circumstances. As to the attitude of Germany and the insurgents in Cuba, there is no change in our intention. This government has not been misled in its estimate of those forces."

With the oppressive heat Spain has put on them a long, continuing against the conditions imposed by injustice and oppression, there should have been little expectation of greater activities than are now shown by them. This government will have to treat them kindly but firmly. It has made a pledge to establish a firm and stable government, and that must be carried out. It therefore has to be in the light of present circumstances and conditions, many years before affairs there have so shaped themselves as to entrust the island to the Cubans and we finally yield our possession of them. The transition must be gradual, step by step, and this final general change of control effected only after a thorough training and demonstration of the abilities of the people, beginning with the trial of some of the leaders in at first minor capacities. This is what is to be looked for and the gradual transition will consume a length of time considerably at variance with what the people now expect."

SPANISH PRISONERS.

Government of Spain Requests That They Be Landied at Vigo, Coruna, or Atlantic and Santander.

WASHINGTON, July 23.—The Madrid government officially has recognized the proposed return of the United States of the Santiago prisoners to Spain. This recognition came Friday in the form of a letter to Gen. Shafter from Gen. Toral, commander of the Spanish troops at Santiago. The fact of the receipt of the letter was communicated to the war department Friday night in the following dispatch from Gen. Shafter:

SANTIAGO DE CUBA, July 22. B. C. Corbin, Adjutant General, Washington—I am just in receipt of a letter from Gen. Toral saying the Spanish secretary of war desires the troops landed at Vigo, Coruna, or Atlantic, and at Santander, in the Bay of Biscay. (Signed) SHAFER, Major General, Commanding.

The request of the Spanish government will be complied with unless something unforeseen should prevent."

TO BE REBUKED.

Gen. Shafter Will Receive Instructions to Repair the Breach Between Him and Gen. Garcia.

WASHINGTON, July 23.—It is no violation of confidence to say that Gen. Shafter's course, in respect to Gen. Garcia, does not at all meet the approval of the administration. The matter was fully discussed at the cabinet meeting Friday, and it is understood that at least two of the president's advisers expressed themselves forcibly as well as freely. As a result Gen. Shafter will be instructed to adopt toward the Cuban insurgents a conciliatory policy, and to show to Gen. Garcia all the consideration due to his rank and services. That no serious breach between the Cuban insurgents and the American forces will take place is earnestly hoped. But it is a great source of uncertainty here how far Gen. Garcia will carry his resentment for the indignities to which he declares in his letter Gen. Shafter has subjected him.

The Nipe Expedition.

WASHINGTON, July 23.—The following message has been received at the war department:

"PLATA, July 22, 1898. "Expedition to Nipe has been entirely successful, although the mines had not been found. The war of time. The Spanish cruiser Juan, defending the place, was destroyed without loss on our part. The Annapolis and Wasp afterward proceeded from Nipe to assist in the landing of the commanding general of the army on arrival at Porto Rico."

"SAMPSON."

French Wine for Sick and Wounded Soldiers. New York, July 23.—A firm of wine makers at Rheims, France, has offered the United States government 1,200 bottles of champagne for the sick and wounded soldiers. The surgeon general of the army referred the offer to the secretary of the treasury who has issued orders that the wine be admitted free of duty. Part of the wine will be sent to Santiago and the rest to other points.

More Peace Talk.

LONDON, July 23.—The Madrid correspondent of the Daily Mail writes: "Senor Sagasta told a representative of El Imparcial Friday that the government had already entered upon the preliminary stage of peace negotiations. Gen. Sagasta has arrived and will have an audience with the queen regent tomorrow."

Horrible Find.

BOSTON, July 23.—The dead bodies of six infants, each wrapped in paper, were found in a recent lot in the sixth Roxbury district Friday. Medical examiner Draper, after an autopsy, said the youngest child was one month old and the eldest three months. Some were strangled while others were allowed to die of neglect.

Wealthy American Killed.

LONDON, July 23.—The British correspondent of the Standard says: "A wealthy American named Riegel has been killed while attempting to ascend Mont Blanc without a guide. His corpse was found on a glacier."

MAY BE A CHANGE.

Commodore Schley Liable to Succeed Adm. Sampson in Command of the Fleet.

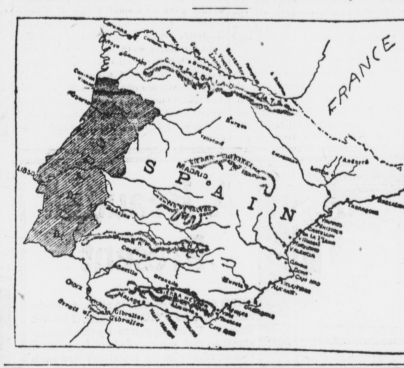

IT IS OPEN GOSSIP IN WASHINGTON.

McKinley Is Extremely Irritated Over Sampson's Failure to Co-operate With Miles at Once.

Sampson's Display of "Caution" Stands Out in Striking Contrast to Schley's Daring and Intrepidity—Navy Department Waiting for News.

WASHINGTON, July 23.—Gen. Miles still at Guantanamo, but there will be no further delay in this expedition. Gen. Brooke's army at Chickamauga is now on the move towards the places of embarkment, if the orders of the war department have been carried out. Preparations for conveying the fleet have been made, and things ought to go along smoothly now. The department is anxiously awaiting news from Manila, and it is the belief of the officials of the administration that Adm. Dewey has already taken the city. There is considerable gossip about

Spain's Seacoast, Showing Towns Which Watson May Attack.

the president's order to Adm. Sampson commanding him to co-operate at once with Gen. Miles. It is open gossip in Washington that Adm. Sampson's failure to do so has caused the president to be extremely irritated. Adm. Sampson is extremely irritated and a change of commanders of the fleet would not be surprising. Adm. Sampson has been a bureau officer at Washington all his life, his record on the quarter deck since the war began has not been remarkable for either brilliant initiative or force. He has at all times displayed a degree of "caution" that stands out in striking contrast to Commodore Schley's daring and intrepidity, and it would not be surprising if, as the result of recent events, Adm. Sampson were recalled to Washington for the more congenial ease and deliberation of a desk and Commodore Schley were ordered to fly the pennant of the admiral commanding the fleet.

LIEUT. HOBSON.

The Merrimac Hero Arrives in Washington and Has a Consultation With Secretary Long.

New York, July 23.—Lieut. Hobson, who took the Merrimac into the channel at Santiago, arrived here Friday on the United States cruiser St. Paul, and it is believed proceeded at once to Washington by the way of the Pennsylvania railroad. It is possible that Hobson is the bearer of Adm. Sampson's report of the naval engagement off Santiago. When Hobson left a ferry-boat at the foot of Whitehall street it took but a few minutes to learn his identity, and a crowd soon gathered to cheer him.

WASHINGTON, July 23.—Lieut. Hobson, the Merrimac hero, arrived at the navy department Friday afternoon. Secretary Long came out of his private office and grasping Hobson with both hands, said with sincerity, "Lieutenant, I am glad—very glad to see you," then he drew him into his office, where the lieutenant was introduced to Assistant Secretary Allen and was greeted by Capt. Cronin, shield, Capt. Bradford and Pension Commissioner Evans, who happened to drop in. He spent half an hour in conference with the secretary and then returned to the club to rest.

Lieut. Hobson's mission is to acquaint the secretary of the navy regarding the work of raising the sunken Spanish vessel at Santiago. The lieutenant called upon the president and was warmly greeted.

San-Queen Laid in San Francisco.

San Francisco, July 23.—Ex-Queen Liloukalan, attended by her physician, Dr. English, of Washington, and Mr. and Mrs. Heubel, have arrived from Washington on route to Honolulu. The party will leave on the Gaelic next Tuesday for the Hawaiian islands.

CALIFORNIA TROOPS.

They Will Form the Advance of the Attack in Force at Manila—They Have Advanced to Janbo.

New York, July 23.—A special to the Journal dated Cavite, July 19, via Hong Kong, July 23, says:

The entire regiment of 1st California volunteers advanced Tuesday to Janbo, only two miles from the Spanish lines surrounding Manila. The California troops have been thrown out by Gen. Anderson to form the advance of the attack in force. South Manila to be captured first. The Colorado and Utah batteries are being landed at Parangue directly from the ships. The 10th Pennsylvania volunteers, with the rest of the artillery, will land at Malabon, just north of Manila. Brig. Gen. Francis V. Green, formerly colonel of the 1st regiment of New York, is in command of the advance. Gen. Anderson remaining in Cavite.

Agustino D.clared Dictator.—WASHINGTON, July 23.—The following cablegram has just been received at the war department:

HONG KONG, July 23.—Secretary of the Navy:—The following is for the secretary of war to the adjutant general: Agustino declares dictatorship and martial law over all the islands. The people expect independence. Recommend China policies.
